**AMENDMENT TO A PETITION FOR RULE MAKING**

Team Broadcasting Company, Inc. ("TEAM"), a Mississippi Corporation, hereby submits an amendment to a previously filed petition for rule making. The first petition was filed Commission to institute a Notice of Proposed Rule Making (NPRM) for the allocation of channel 244A to Macon, Mississippi, as that Community's first FM broadcast service. TEAM gave the required verifications and also certifies that if the Commission allotted the channel, it, or an entity in which it participates, will file an application for construction permit.

**REASONS FOR PRM MODIFICATIONS**

The pending PRM was filed May 5, 1997. Immediately after filing, Team learned of upgrade plans of an associate minority broadcaster, Autaugaville Radio, Inc. ("ARI"). ARI is the permittee of a new broadcast station at Pine Hill,

Alabama, also on channel 244. Due to the downgrade of WJUS(FM) Fort Walton Beach, Florida, (channel 245) from class C to class C1, ARI can use the "one step" process to upgrade to a class C2. However, the allocation/application reference coordinates are short spaced to the proposed Team allocation coordinates for channel 244A at Macon.<sup>\1</sup>

Team therefore desires to modify the reference coordinates in its PRM to a point which offers clearance to the Pine Hill class C2 application and still provide the required 70 dBu contour service to 100% of Macon. Exhibit E, Figure 1 is an allocation study which reflects this change and Exhibit E, Figure 2 is map displaying the clear allocation window and the 70 dBu contour (16.2 KM) relationship to Macon. Both exhibits consider the deletion of channel 244A at Winona, Mississippi, and the subsequent allotment of channel 236A.

---

<sup>\1</sup> In addition to clearing the C2 allocation/application of ARI at Pine Hill, the new Team reference coordinates also clear the present class C3 allocation reference at Pine Hill. See Exhibit E, Figure 1.

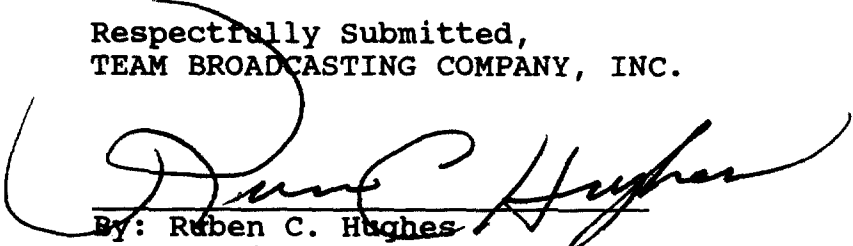

### CONCLUSION

In order to avoid conflict with an associate, TEAM is requesting the Commission modify its pending petition for rule making which seeks the allotment of channel 244A at Macon, Mississippi. The instant modification will allow the listeners in the Macon, Mississippi, to receive a first local service while simultaneously allowing the upgrade of channel 244 at Pine Hill, Alabama.
